Foreword

The Navy-wide Personnel Survey (NPS), which is administered annually, is one part of the Navy Personnel Survey System (NPSS) originated by the Navy Personnel Research and Development Center. The NPSS is designed to manage and control Navy personnel surveys to minimize intrusion into fleet and shore operations and to serve as a vehicle for attitude and survey research. The NPSS is composed of NPS, special surveys, and quick-response surveys. NPS 1992 examined the perceptions of personnel in a variety of areas including rotation/permanent change-of-station moves, training, quality-of-life programs, organizational climate, and health issues. The information is valuable to managers and policy makers in program formulation and evaluation.

NPS 1992 was conducted under the sponsorship of the Chief of Naval Personnel (PERS-00) within reimbursable Work Unit 93WRPS578. Data collection concluded in mid-February 1993 and the results of the survey were briefed to the Chief of Naval Personnel, his staff, and sponsors in early April 1993.

This technical note, one of a series documenting the results of NPS 1992, provides statistical tables for officers. NPRDC-TN-93-8 provides statistical tables for enlisted personnel. A management report (in process) and a series of special reports on specific survey topics will follow.

Any questions regarding this report should be directed to Emanuel P. Somer, Head, Survey Research Division, (619) 553-9248 or DSN 553-9248.

Summary

The third annual Navy-wide Personnel Survey (NPS) was mailed in December 1992 to a random sample of 20,547 active duty enlisted personnel and officers. Completed questionnaires were accepted through mid-February 1993. The adjusted return rate was 49%. Survey topics included rotation/permanent change-of-station moves, training, quality-of-life programs, organizational climate, and health issues. Responses were weighted to allow generalization of sample results to the Navy population. Responses of officers are broken out by pay grade and other important demographic variables.

Introduction

Problem

The morale and job performance of Navy members take on added importance in an era of downsizing, where each individual must contribute to the increased efficiency required of a reduced force in a still-hostile world. Navy members' attitudes and opinions represent input vital to the development and continuous improvement of Navy policies and programs; therefore, such opinions must be measured in a systematic and timely fashion, thus furnishing an accurate reflection of the views of its diverse and widespread membership.

Purpose

The annual Navy-wide Personnel Survey (NPS) was designed to collect opinion data on a systematic basis and to provide timely information on issues of importance to policy makers. The annual sampling, representative of the entire Navy population, will allow the identification and analysis of trends in opinions and attitudes toward plans, programs and policies which materially affect the performance and morale of Navy members. The survey was also designed to accommodate the study of topics of compelling interest on a one-time basis. This technical note provides officer personnel results of NPS 1992, the third administration of NPS.

Approach

NPS questionnaires were mailed in December 1992 to a random sample of 20,547 enlisted personnel and officers with a projected rotation date of February 1993 or later. Members who received the 1991 survey were not eligible for inclusion in the sample. The sampling represented approximately 4% of the enlisted population and 11% of the officer population. Of the original sample, 576 surveys could not be delivered. Reminder/thank you postcards were mailed to the entire sample 4 weeks after the surveys. The adjusted return rate was 49%. Deletion of cases with nonvalid response patterns resulted in a final sample size of 9,674. Unadjusted return rates for pay grade groups, total enlisted, and total officer groups are displayed in Table 1.

The survey requested demographic information and measured military members' attitudes and opinions in various areas, including rotation/permanent change-of-station moves, training, quality-of-life programs, organizational climate, and health issues. Of the total 243 questions, 106 questions appeared on both the 1991 and 1992 surveys. Fifty-eight questions appeared in NPS all 3 years.

This technical note provides the 1992 results in statistical tables for officers, while a companion technical note (Quenette, Steerman & Le, 1993) provides enlisted personnel statistical tables. A management report (in process) and a series of special reports on specific survey topics will follow. Results of previous surveys are documented in Quenette, Kalus, Hase, & Brinderson (1991a, 1991b, 1991c, 1991d), Quenette (1992), Quenette, et al., (1992a, 1992b), and Wilcove & Quenette (1992a, 1992b).

The statistical tables are based on weighted data. Responses were weighted by pay grade to reflect each pay grade's actual proportion in the Navy, thereby allowing generalization of sample results to the entire Navy. Separate weighting schemes were employed for enlisted and officer personnel; within the enlisted/officer groups, each pay grade was weighted separately.

For statistical analyses, enlisted personnel were grouped according to pay grade: (1) E-2 and E-3; (2) E-4 through E-6; and (3) E-7 through E-9. Individuals in pay grade E-1 at the time of the survey were excluded because of their limited time in the Navy. Officers were assigned to one of three groups: (1) W-2 through W-5; (2) O-1E through O-3E and O-1 through O-3; and (3) O-4 through O-6.

Organization

The sequence of statistical tables in this technical note corresponds to the sequence of the questions in the NPS 1992. (A copy of the NPS 1992 appears in the appendix. Total percentages, or marginals, are provided with the NPS questionnaire in the appendix.) For questions that allow the respondent to select a "Does not apply" option, the results are displayed with and without that option. In addition, some questions were broken out by other demographic variables, and those results are displayed as well.

Margin of Error

The statistical tables show the numbers and percentages of (weighted) subgroups selecting each response option. Tabulated results are accurate (at a 95% level of confidence) within the margins of error displayed in Table 2. For example, for the W-2 through W-5 pay grade group, the true population percentage could be as much as 5% higher or lower than the value displayed in the tables. These margins of error are valid for the respondent groups listed below; smaller group sizes would yield larger margins of error.

How to Read the Statistical Tables

The information contained in each statistical table is described in Figure 1.

1. Question number and description of question.
2. Number and description of question from which respondent groups are derived.
3. Respondent groups.
4. Response options.
5. N: (Weighted) number of responses.
6. Column percent: For a given (weighted) respondent group, the column percent provides a distribution of responses across response options.
7. Total number (weighted) of respondents in group.

PRIVACY ACT STATEMENT

Public Law 93-579, called the Privacy Act of 1974, requires that you be informed of the purposes and uses to be made of the information collected. Navy Personnel Research and Development Center may collect the information requested in the Navy-wide Personnel Survey, 1992, under the authority of 5 United States Code 301.

The information collected in the questionnaire will be used to evaluate existing and proposed Navy personnel policies, procedures, and programs.

Providing information in this form is completely voluntary. The information you choose to provide will NOT become part of your permanent record and will NOT be used to make decisions about you which will affect your career in any way. It will be used by the Navy Personnel Research and Development Center for statistical purposes only. Failure to respond to any of the questions will NOT result in any penalties except possible lack of representation of your views in the final results and outcomes.

Report Control Symbol for this survey is 1000-13.

Important Instructions

You have been randomly selected by computer to take part in this survey. Your participation is voluntary. Please take the time to give careful, frank answers. It should take about thirty minutes to complete the survey.
